Re: Proposal for landscape renovation design for outer roadway planting areas across road from residences on Mulberry Lane, Fiddler's Creek Community, CDD#1; Naples, Florida; as discussed. Project shall consist of field observation and evaluation determining areas of existing buffers that have deteriorated and require re-planting. New planting shall be site specific as it relates to screening requirements, sun/shade exposure and a multi-level, tiered planting for contrast and interest where space allows. Creation of field inventory for base map creation will be included. Cad files for the roadway and/or planting plans will be beneficial to save field measurements and planting plan re-creation for base map for new design. The area consists of the planting area between masonry wall and roadway; approx 1850LF.

PROPOSAL FOR LANDSCAPE DESIGN

Scope of work:

- 1) Assimilation of all program data as received from you and your agents.
- 2) Actual on site measurement and placement of existing elements on base map.
- 3) Analysis of on-site and off-site conditions (general).
- 4) Preparation of final landscape planting plan. Irrigation adjustments by others.

- 5) Plan shall meet Collier County LDC and any provided Fiddler's Creek CDD#1 expressed requirements.

Drawings to include:

- 1) Planting plan shall show all existing landscape elements, and all proposed new landscape elements, all pertinent, existing vegetation and materials to remain, to be relocated or to be removed. Notes will identify materials to be used, specifications of plant materials and location. A plant list indicating quantity, common name, botanical name, size and spacing will be included in this plan.

Services to include:

- 1) Presentation to owner upon completion of plan shall be included. Additional Meetings, reviews, presentations shall be provided as needed. Presentation to review boards, agents or officers shall be provided as needed.

FEE PAYMENT AND SCHEDULE

I propose to prepare and execute the above noted drawings and services for the lump sum of \$2950.00 (plus expenses: printing, duplicating and postage). CAD file is required to be furnished for base map; best case would be planting plans. If CAD file is not available there may be a charged for base map creation. The breakdown is as follows:

Area #1: .35 miles; 1 side of road

As described above.

Site inventory, evaluation, mapping existing conditions: 500.00

Area #1: .35 miles; 1 side of road

As described above.

Prepare Landscape Plan: 2450.00

Prepare cost estimate: NC

The payment shall be as follows:
50% deposit at signing of proposal/contract
Balance upon delivery of completed plans

Please notify my office as to any additional landscape requirements that may impact the design such as PUD requirements, special landscape elements or requests from you,

the owner or his agents that are not currently part of the development program. Please give notification within 24 hours after initiating the contract. Any changes or additional information impacting the work after this period will be charged on a time and material basis.

This offer is valid for 14 days. If this proposal/contract is satisfactory and acceptable to you, please sign and return with deposit check to initiate the work.

PLEASE MAKE CHECKS PAYABLE TO DALE A. SLABAUGH & ASSOCIATES, INC.
